About Tanya

From a very young age, Tanya always loved animals in particular dogs. As a child she was always "collecting" stray dogs and other animals needing help, much to her Mother's dismay but it was from her Mother and Father that she got her great empathy for animals. Tanya is also a member of and follows various organisations promoting kindness in dog training and grooming and those that promote ethical sourcing of dogs away from puppy farms. She is a strong believer in continuous professional development and gaining recognised qualifications. Her studies around dogs are on going. She believes everyone should ask their future trainer what methodology they use to train and what qualifications they obtained to train them.
